

## PRESS RELEASE

# TACHOfresh exhibits at the International TransLogistica Poland in Warsaw

**Wildau - Germany, XX.10.2023 - TACHOfresh, provider of intelligent solutions around the digital tachograph, will present itself at the International TransLogistica trade fair in Poland's capital Warsaw from 7th to 9th November 2023.**

The focus of TACHOfresh's trade fair presentation will be on its digital tachograph solution with a focus on remote download, archiving and reporting. With participation in TransLogistica, TACHOfresh based in Wildau / Berlin is taking the next step towards market expansion in Poland. "For us, the leading transport and logistics trade fair in Poland offers the ideal framework to deepen existing partnerships, to present our own expertise to a larger professional audience and to establish new partnerships. We are looking forward to making new contacts in our search for Polish sales partners, who should either be a telematics providers or partners from the VDO network," says TACHOfresh Managing Director Dr Susanne Kirsch. TACHOfresh distributes its services through international telematics providers and the VDO partner network. For Remote Download Hardware TACHOfresh has a long lasting partnership with Teltonika, having its own software on Teltonika devices.

"As a large number of Polish transport companies do business across Europe, the TACHOfresh solution offers an ideal platform for these companies. The Mobility Package 1 is well addressed within the TACHOfresh solution. TACHOfresh is web-based, modular and cost-effective. Over 40,000 vehicles and 100,000 drivers in Europe are using our services," explains Kirsch. The TACHOfresh service offering includes the full integration of the Smart Tacho version 2; the new remote download server "MINI Start 2" was explicitly developed for small and medium sized companies with up to 50 vehicles.

*Visit us in **Hall 3 Stand N7** at the joint stand of "Your German Logistics".*

### **About TACHOfresh**

TACHOfresh, based in Wildau / Berlin, has been developing solutions for the transport and logistics industry for 25 years. The company cooperates closely with the Technical University of Wildau. With market entry of the digital tachograph, TACHOfresh undertook a strategic realignment with the aim of becoming the competence center for remote download and tachograph data reporting in Europe. Today, TACHOfresh serves over 2,000 customers with 100,000 drivers and 40,000 vehicles across Europe at its two German locations in Wildau and Munich and its international partner network.
